

Builder status is awarded to DESI members in recognition for a long engagement and a significant contribution to the collaboration infrastructure and service work. The list of builders, updated annually, currently consists of the following members.

Aguilar	Jessica	for outstanding leadership of petal fabrication and assembly
Ahlen	Steve	for outstanding contributions to the focal plane system
Ameel	Jon	for outstanding contributions to the focal plane electronics
Bailey	Stephen	for outstanding leadership of the data systems and data pipeline development
Baltay	Charles	for outstanding contributions to the fiber view camera
Bebek	Chris	for outstanding leadership as Instrument Scientist
Besuner	Robert	for outstanding leadership as Project Manager and Systems Engineer
Blanc	Pierre-Eric	for outstanding contributions to the spectrographs
Blum	Robert	for outstanding contributions to project management and governance
Brammal	David	for outstanding contributions to the fiber system
Brooks	David	for outstanding contributions of the wide-field corrector
Buckley-Geer	Elizabeth	for outstanding contributions to the instrument control system
Burleigh	Kaylan	for outstanding contributions to the imaging survey
Cahn	Robert	for outstanding contributions to the design of the survey
Carton	Pierre-Henri	for outstanding contributions to the spectrographs and cryostats
Claybaugh	Todd	for outstanding contributions to the focal plane system
Cooper	Andrew	for outstanding contributions to the support of the bright galaxy and milky way science
Dawson	Kyle	for outstanding contributions to the design of the survey and survey validation
Derwent	Mark	for outstanding contributions to the spectrographs
Dey	Arjun	for outstanding leadership of the observations and contributions to the imaging surveys
Dhungana	Govinda	for outstanding contributions to the data system
Dobson	Carl	for outstanding contributions to the instrument software
Doel	Peter	for outstanding leadership of the construction of the wide-field corrector
Duan	Yutong	for outstanding contributions to the focal plane system
Edelstein	Jerry	for outstanding contributions to the spectrographs
Eftekharzadeh	Sarah	for outstanding contributions to the survey design
Eisenstein	Daniel	for outstanding leadership as collaboration Spokesperson and contributions to the design of the survey
Elliott	Ann	for outstanding contributions to the instrument operation pipeline
Estrada	Juan	for outstanding contributions to the CCD packaging

Fagrelius	Parker	for outstanding contributions to the instrument and its commissioning
Fanning	Kevin	for outstanding contributions to the focal plane system
Flaugher	Brenna	for outstanding leadership as Project Scientist and leadership of the AIT&C subsystem
Gaztanaga	Enrique	for outstanding contributions to the imaging validation
Gutierrez	Gaston	for outstanding leadership of the construction of the wide-field corrector
Guy	Julien	for outstanding leadership as Project Scientist and contributions to the data pipeline
Harris	Stewart	for outstanding leadership as Systems Engineer
Heetderks	Ian	for outstanding contributions to the construction of the focal plane
Heetderks	Henry	for outstanding leadership as Project Manager
Herrera	David	for outstanding contributions to the imaging survey
Honscheid	Klaus	for outstanding leadership of the development of the instrument control system
Ishikawa	Yuzo	for outstanding contributions to the spectrographs
Jelinsky	Patrick	for outstanding leadership of the construction of the spectrographs
Jelinsky	Sharon	for outstanding contributions to the construction of the focal plane
Jimenez	Jorge	for outstanding contributions to the construction of the guiders
Joyce	Richard	for outstanding leadership as Instrument Scientist for NOAO/Mayall
Karcher	Armin	for outstanding contributions to the detector electronics
Karkar	Sonia	for outstanding contributions to the spectrographs
Kehoe	Robert	for outstanding contributions to the data system and to project management
Kent	Stephen	for outstanding contributions to the focal plane software
Kirkby	David	for outstanding contributions to the survey design
Kisner	Theodore	for outstanding contributions to the pipeline software
Kitanidis	Ellie	for outstanding contributions to the imaging survey
Lambert	Andrew	for outstanding contributions to the focal plane system
Landriau	Martin	for outstanding contributions to the imaging survey
Lang	Dustin	for outstanding contributions to the imaging survey
Le Guillou	Laurent	for outstanding contributions to the spectrograph calibration system
Lee	Jae Hyeon	for outstanding contributions to target selection
Levi	Michael	for outstanding leadership of the DESI project as Director
Magneville	Christophe	for outstanding contributions to the spectrographs and cryostats
Martini	Paul	for outstanding leadership as instrument scientist and contributions to the commissioning instrument
McDonald	Patrick	for outstanding contributions to the survey design
Meisner	Aaron	for outstanding contributions to the imaging survey
Miller	Tim	for outstanding contributions to the wide-field corrector
Moustakas	John	for outstanding contributions to the imaging survey

Myers	Adam	for outstanding leadership of the target selection pipeline
Newman	Jeffrey	for outstanding contributions to the target selection
Nie	Jundan	for outstanding contributions to the imaging survey
Palanque-Delabro	Nathalie	for outstanding leadership as Spokesperson and contributions to target selection
Pappalardo	Daniel	for outstanding contributions to the spectrographs
Peng	Xiyan	for outstanding contributions to the imaging survey
Percival	Will	for outstanding contributions to the preparation of the galaxy and quasar clustering science
Poppett	Claire	for outstanding leadership of the fiber system
Prada	Francisco	for outstanding contributions to the fiber positioners
Probst	Ronald	for outstanding contributions to the telescope and installation work
Rabinowitz	David	for outstanding contributions to the fiber view camera
Raichoor	Anand	for outstanding contributions to the target selection
Rockosi	Constance	for outstanding leadership as Commissioning Scientist
Roe	Natalie	for outstanding contributions to the project management
Ronayette	Samuel	for outstanding contributions to the spectrographs
Ross	Ashley	for outstanding contributions to the commissioning instrument
Schlafly	Edward	for outstanding contributions to the imaging survey and to the focal plane
Schlegel	David	for outstanding leadership as Project Scientist and contributions to the imaging survey
Schmoll	Juergen	for outstanding contributions to the fiber system
Schubnell	Michael	for outstanding contributions to the fiber positioners
Sharples	Ray	for outstanding leadership of the fiber system
Silber	Joseph	for outstanding leadership of the construction of the focal plane
Sprayberry	David	for outstanding leadership of the installation of the corrector and instrument
Staten	Ryan	for outstanding contributions to the data system
Stephey	Laurie	for outstanding contributions to the spectroscopic pipeline
Tarle	Gregory	for outstanding contributions to the fiber positioners and for leadership as institutional board chair
Tyas	Luke	for outstanding contributions to the fiber system
Valdes	Francisco	for outstanding contributions to the imaging survey
Weaver	Benjamin	for outstanding contributions to the software infrastructure
Weaverdyck	Curtis	for outstanding contributions to the fiber positioners
Wechsler	Risa	for outstanding leadership as collaboration Spokesperson and contributions to survey leadership
Yeche	Christophe	for outstanding contributions to the target selection and survey validation
Zhang	Kai	for outstanding contributions to the focal plane
Zhang	Tianmeng	for outstanding contributions to the imaging survey
Zhou	Zhimin	for outstanding contributions to the BASS imaging survey
Zhou	Xu	for outstanding contributions to the BASS imaging survey
Zhou	Rongpu	for outstanding contributions to the target selection
Zou	Hu	for outstanding contributions to the BASS imaging survey
